

Facaplex Unveils Advanced Polycarbonate Roofing Solution for Global Markets

Shanghai, China – [01, Sep 2025] – Facaplex, a leader in innovative polycarbonate building systems since 1996, proudly introduces its premium [Roofing Solution](#)—a high-performance, energy-efficient, and durable polycarbonate roofing product line designed to redefine modern construction standards.

Facaplex's new **Roofing Solution** brings together lightweight design, superior impact resistance, and thermal efficiency. Built from high-grade polycarbonate sheets with a UV-protective coating, this roofing system delivers up to **90% visible light transmission** while blocking harmful ultraviolet rays—ensuring long-lasting clarity and unwavering durability in diverse climatic conditions.

The innovation behind this [Roofing Solution](#) caters to a broad range of applications—from expansive industrial rooftops and greenhouse structures to residential patios and public walkways. Its lightweight structure simplifies transportation and installation, while **its structural resilience is dramatically enhanced—boasting impact resistance up to 250 times greater than that of glass.**

Moreover, Facaplex's [Roofing Solution](#) provides formidable thermal insulation and weather resistance. Engineered to endure extreme temperatures (-40 °C to +120 °C), strong winds, hail, and heavy rainfall, these panels maintain their structural integrity over prolonged service, with a typical lifespan ranging from **10 to 25 years**.

As a wholesale supplier and OEM specialist, Facaplex offers customized **Roofing Solution** panels tailored to specific project needs—including varied thicknesses, finishes, and sizes to accommodate unique architectural demands. Clients benefit from scalable production, competitive pricing, and dedicated technical support throughout the design and installation process.

Why Facaplex's Roofing Solution Stands Out:

- **Unmatched Durability & Safety** – Engineered for high-impact and UV resilience.
- **Energy-Efficient Performance** – Excellent daylight penetration plus thermal insulation reduces artificial lighting and energy costs.
- **Effortless Installation** – Lightweight construction reduces labor and structural load.
- **Customizable & Versatile** – Options in thickness, transparency, profile, and design aesthetics.
- **Low Maintenance** – UV-coated panels resist yellowing and degradation for years.

“Facaplex's [Roofing Solution](#) sets a new benchmark in polycarbonate roofing—marrying architectural elegance with unmatched engineering,” remarked a Facaplex spokesperson. “Whether for industrial complexes, agricultural greenhouses, or contemporary residential spaces, our roofing systems offer a versatile, long-lasting choice that blends function with design.”

A dark blue banner with white text and icons. On the left, it says "Facaplex – Expert in Polycarbonate Skylight Panels & Roof Systems" and "MODERN ARCHITECTURAL SOLUTIONS". In the center, it lists contact information: "+86 13761311937" with a phone icon, "info@facaplex.com" with an email icon, and "www.facaplex.com" with a globe icon. On the right, there is a circular inset image of a woman in a white shirt and headset, pointing upwards with her right hand.
