

Guangdong, China, 23rd Apr 2026 - ValanoIPC, a leading innovator in rugged computing solutions, proudly announces the launch of its advanced **industrial windows tablet**, engineered to deliver unmatched performance, durability, and flexibility for modern industrial applications. Designed to meet the growing demand for reliable mobile computing in harsh environments, this powerful device combines cutting-edge technology with rugged design, making it ideal for industries such as manufacturing, logistics, field service, and automation. Built with a robust aluminum alloy frame and certified with IP65 and MIL-STD-810G standards, the new **industrial windows tablet** ensures resistance to dust, water, shock, and extreme temperatures. It is specifically developed for professionals who require uninterrupted performance in demanding environments.

The graphic features the ValanoIPC logo at the top left. Below it, the text 'INDUSTRIAL WINDOWS TABLET' is written in large, bold, white letters on a dark purple background. Underneath, it says 'Top Features to Look for in an Industrial Windows Tablet for 2026!' in a smaller, white font. A yellow button with the text 'LEARN MORE' is positioned below the text. At the bottom left, there is a globe icon followed by the website address 'www.valanoipc.com'. On the right side, there is a circular inset image of a female worker in an orange safety jacket and white hard hat, looking at a tablet device in a factory setting. The background of the graphic consists of large, overlapping yellow and purple geometric shapes.

Top 5 Highlights of ValanoIPC Industrial Windows Tablet

1. Rugged Durability for Industrial Use

The tablet is engineered to withstand drops, vibrations, and harsh weather conditions. Its rugged structure ensures long-term reliability, making it a dependable tool for field operations and factory floors.

2. High-Performance Processing Power

Powered by Intel Core i5 or i7 processors, the industrial windows tablet delivers exceptional

computing performance for multitasking and data-intensive applications. This ensures the smooth operation of industrial software and real-time analytics.

3. Sunlight-Readable Full HD Display

Featuring a 12.2-inch Full HD IPS display with high brightness, the device offers clear visibility even in direct sunlight. The 10-point capacitive touch enables seamless operation, even with gloves.

4. Advanced Connectivity and Expansion Options

Equipped with Wi-Fi 6, Bluetooth, optional 4G/5G connectivity, and multiple I/O ports, this industrial Windows tablet ensures seamless communication and integration with industrial systems, sensors, and peripherals.

5. Flexible Operating System Compatibility

While optimized as an industrial windows tablet, it also supports multiple operating systems, allowing businesses to customize workflows according to their specific operational needs.

VALANO TECHNOLOGY

“Valano is a leading supplier of industrial pcs, panel pcs, rugged tablets, network security machines.”
