

Vape Shark Australia Launches Gunnpod Meta 4000 Puffs

Date : Sep 27, 2023

Vape Shark Australia has officially launched the Gunnpod Meta 4000 Puffs in Australia, and it's already making waves in the vaping community. This next-generation vaping device was developed with the goal of providing users with a powerful, convenient, and hassle-free vaping experience. The Gunnpod Meta 4000 Puffs is made up of two parts; the battery and atomizer that fit together like a puzzle. With its sleek design and advanced features, users can enjoy a powerful throat hit with every puff. Additionally, this device offers two different voltage settings allowing you to customize your vape for optimal performance. Its innovative four-stage LED light indicates power level while also allowing you to choose from over 7 million color combinations to personalize your device!

All You Need to Know About Gunnpod Meta 4000 Puffs from Vape Shark Australia

Vape enthusiasts are always on the lookout for the latest in vaping technology and style. With the vaping industry experiencing an upsurge in the number of brands and products, choosing the right vape can be overwhelming. However, if you're a vaper seeking a device with extended lifespan and high battery capacity, then the Gunnpod Meta 4000 Puffs from Vape Shark Australia may be a perfect fit for you. In this news post, we shall review the main features of the **Gunnpod Meta 4000 Puffs**, giving you an in-depth understanding of what makes it a fan favorite in the vaping industry.

1. Design

The Gunnpod Meta 4000 Puffs is a beautifully designed vape pod with an ergonomic grip that makes it easy to handle. The pod has a curved edge with soft-touch material that enhances the user's overall experience. The device measures 93x25x14mm, making it compact and portable. It weighs only 35g, making it one of the lightest vapes on the market. The device has a smooth finish that gives it a sleek and modern look.

2. Battery Life

The Gunnpod Meta 4000 Puffs has a massive 1500mAh built-in battery that can last up to 4000 puffs per charge. The battery is USB Type-C fast-charging compatible, making it easy and convenient to charge the pod. The microchip integrated within the device helps regulate the power output to extend battery life. The device's battery level is indicated by an LED light on the device, with a red light indicating low battery levels and a green light for a full charge.

3. Pod and Coil

The pod for the Gunnpod Meta 4000 Puffs is made of polycarbonate material, popular for its durability. The pod can hold up to 2ml of e-liquid, which is impressive compared to other similar devices. The pod is transparent, allowing the user to monitor the e-juice level and decide when to refill. The device uses a non-replaceable atomizer head that can last up to 4000 puffs. The coil, which is made of organic cotton, ensures the user experiences the full flavor of the e-juice.

4. Convenience and Features

The Gunnpod Meta 4000 Puffs is easy to operate, with only one button to ignite the device. The device's LED light serves as a power indicator, battery level indicator, and charging indicator. The device has an airflow control system that allows the user to regulate the amount of vapor produced. It also has multiple safety features like vapour lock protection, overcharging protection and short-circuit protection, making it safe and user-friendly.

5. Vapor Quality and Flavor

The Gunnpod Meta 4000 Puffs delivers a consistent vapor quality, with long-lasting flavor. The device uses a 1.2ohm heating coil that produces smooth and flavorful vapor. The pod has a side-fill design, which is easy to refill, providing the user with a hassle-free and enjoyable experience.

The Gunnpod Meta is a powerful and trendy device that has taken the vaping community by storm. One commonly asked question about this product is whether or not it is rechargeable. Vapers everywhere want to know if they can enjoy the convenience of not having to constantly replace batteries in their device. After thorough research, it has been confirmed that the Gunnpod Meta is indeed rechargeable. This is great news for all vapers looking for a hassle-free and cost-effective way to use their device. With this convenient feature, vapers can enjoy their Gunnpod Meta for longer periods of time without worrying about running out of power.

If you're a vaper seeking an ultra-portable, stylish and efficient vape pod with a long battery life, then the Gunnpod Meta 4000 Puffs from **Vape Shark Australia** is a perfect fit. Its compact design, 4000 puff capacity, and safety features make it a desirable device. It is also user-friendly and easy to operate. Its polycarbonate pod and organic cotton heating coil produce flavorful vapor and give you a satisfying vaping experience. With its advanced features and sleek design, the Gunnpod Meta 4000 Puffs is definitely worth checking out.
