

ValanoIPC Launches Rugged Tablet PC: Boosting Productivity in Harsh Environments

ValanoIPC proudly announces the release of its latest **Rugged Tablet PC**, engineered to deliver reliable computing performance in harsh industrial environments. Designed for field professionals, logistics operators, and manufacturing teams, this advanced device combines durability, high processing power, and flexible connectivity. The 12.2-inch sunlight-readable display, industrial-grade build, and Ubuntu/Linux compatibility make the new **Rugged Tablet PC** an ideal solution for organizations seeking mobility without compromising performance. Built with IP65 protection and MIL-STD-810G certification, the tablet is designed to withstand dust, water, vibration, and drops in real-world working conditions.

Top 5 Highlights of the ValanoIPC Rugged Tablet PC

1. Industrial-Grade Durability for Harsh Conditions

The ValanoIPC **Rugged Tablet PC** is built with a reinforced aluminum alloy frame and tested to military-grade standards. It supports operation in extreme temperatures and can survive drops and vibration. With IP65 waterproof and dustproof protection, the tablet ensures

uninterrupted productivity in factories, warehouses, outdoor sites, and field service environments.

2. High-Brightness 12.2" Display for Outdoor Visibility

Equipped with a 12.2-inch Full HD IPS screen, the Rugged Tablet PC offers high brightness for sunlight readability. The 10-point capacitive touch panel supports glove operation, making it suitable for industrial workers and technicians. The wide viewing angle and durable screen enhance usability across demanding environments such as construction sites and logistics yards.

3. Powerful Intel Performance for Industrial Applications

ValanoIPC integrates Intel Core i5/i7 processors with expandable RAM and SSD storage to deliver smooth multitasking and stable operation. This [Rugged Tablet PC](#) supports Ubuntu and Linux environments, allowing businesses to run custom industrial software, ERP systems, inspection tools, and automation applications efficiently.

4. Advanced Connectivity for Real-Time Operations

The **Rugged Tablet PC** supports Wi-Fi 6, Bluetooth, and optional 5G/4G connectivity, enabling real-time communication in remote and mobile work scenarios. Multi-GNSS positioning improves navigation accuracy for logistics tracking, fleet management, and field inspection. Multiple I/O interfaces ensure seamless integration with industrial equipment.

5. Versatile Applications Across Industries

ValanoIPC designed this Rugged Tablet PC for manufacturing, warehousing, transportation, utilities, and outdoor engineering. Its rugged design and stable connectivity enable data collection, equipment monitoring, and workflow management directly at the job site. This reduces downtime and improves operational efficiency for modern industrial teams.

With its robust construction, powerful computing performance, and flexible connectivity, the ValanoIPC [Rugged Tablet PC](#) sets a new benchmark for industrial mobility. Companies

looking for a dependable Rugged Tablet PC can rely on ValanoIPC to deliver durability, efficiency, and long-term reliability for mission-critical operations.

About ValanoIPC

ValanoIPC, operated by Valano Technology (Dongguan) Co., Ltd., is a professional manufacturer specializing in industrial computing solutions since 2007. The company focuses on designing and producing industrial PCs, rugged tablets, panel PCs, embedded computers, and network security hardware for demanding industrial environments. With strong R&D, manufacturing, and quality control capabilities, ValanoIPC provides both standard products and customized OEM/ODM solutions for global customers.

VALANO TECHNOLOGY

“Valano is a leading supplier of industrial pcs, panel pcs, rugged tablets, network security machines.”
